**DETAILED ACTION**

***Election/Restrictions***

1. Claims 61-75 remain withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in the reply filed on 07 December 2009.

***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

3. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

4. Claims 42-60, 76 and 77 are rejected under 35 U.S.C. 103(a) as being unpatentable over Monsheimer et al (U.S. Patent Application Publication 2004/0137228 A1) for the reasons of record.

***Response to Arguments***

5. Applicant's arguments filed on 15 June 2010 have been fully considered but they are not persuasive.

6. On page 2 of the remarks, applicant presents remarks concerning a discussion between applicant's representative and the examiner on April 9, 2010. The examiner notes that such a discussion was not held at that time as applicant's representative called the examiner to cancel the telephone conference which was scheduled for April 9, 2010. Since a discussion between applicant's representative and the examiner concerning the merits of the instant application was not held (and was not rescheduled), there is currently no interview summary record in the instant application file.

7. Applicant argues (page 3) that while Monsheimer et al does disclose VESTAMELT® polymers, Monsheimer et al discloses VESTAMELT® X 1310, 4481 and 840, all of which have MFR values which are greater than the range set forth in the instant claims. Examiner responds that Monsheimer et al is not limited to just VESTAMELT® X 1310, 4481 and 840 polymers, but includes copolyamides and copolyesters marketed under VESTAMELT® (see paragraph [0049] of Monsheimer et al), and one of ordinary skill

in the art at the time the invention was made would have found it obvious to use an appropriate VESTAMELT® polymer in order to manufacture a desired molding.

8. Applicant argues (page 4) that the data in Table 1 on page 23 of the instant specification rebuts a *prima facie* case of obviousness because a comparison is made between the thermoplastic random copolymers of the claimed invention (Examples 2-8) and nylon-12 of the prior art (Example 1), wherein nylon-12 is disclosed by Monsheimer et al (paragraph [0049] of Monsheimer et al) as a preferred material. Examiner responds that while Monsheimer et al does teach the use of nylon-12, Monsheimer et al is not limited to just nylon-12, and Monsheimer et al also teaches the use of thermoplastic random copolymers (marketed under VESTAMELT® (see paragraph [0049] of Monsheimer et al)) as set forth in the instant claims.

#### **Conclusion**

9. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee

pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
